

A photograph of two men in a modern office environment. The man on the left is older, with grey hair and a beard, wearing a light blue dress shirt and a dark tie. The man on the right is younger, with dark hair and a beard, wearing glasses, a white t-shirt, and a dark blazer. They are both looking at a tablet held by the younger man. The background shows office glass partitions and interior lights.

Your Technology Advisor

Business is about people. Technology is the engine that drives it. This is why TeamLogic IT focuses on people first and tech next.

## Technology solutions you can depend on from TeamLogic IT®

TeamLogic IT is uniquely qualified to deliver the technology services and solutions that best fit your organization. Unlike many managed service providers (MSPs), we recognize there are two sides to the equation: business and technology. We answer to both, taking the time to understand your company, culture and challenges in context with technology to tailor IT solutions that are right for you.

### **Forging An IT Relationship For The Long Term**

A partnership with a managed IT services provider is one of the most important decisions your company can make. At TeamLogic IT you'll find:

#### **Problem Solvers**

Our nationwide network of more than 1,500 engineers and technicians stay on the leading edge of technology and have seen and solved a vast array of challenges.

#### **IT Solutions**

With more than 20 years of experience and investment in technology R&D, we provide the strategic guidance that meets your IT needs, timing and budget for a better ROI.

#### **Local Experts With A National Presence**

TeamLogic IT provides the breadth and depth of technological expertise with the personal touch of a local advisor.

## Assessing your business risk

Daily business life can be all-consuming, but it is important to set aside time to take a technology pulse of your company. TeamLogic IT offers a variety of business risk assessments to ensure you stay in front of the proverbial eight ball. After all, businesses rarely remain static. They grow, spin off, evolve — each requiring a review of network readiness, cloud support, cybersecurity safeguards and much more. We offer the following core business risk assessments:

- Network Assessment
- Cloud Readiness Assessment
- Cybersecurity Assessment
- AI Readiness Assessment
- Wireless Assessment
- HIPAA Assessment
- Compliance Review
